TITLE 7-AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 530]

· Part 301—Domestic Quarantine Notices

RESTRICTIONS ON JAPANESE BEETLE
MODIFIED

Administrative instructions modifying the restrictions of the Japanese beetle quarantine by advancing the date of termination of restrictions on fruit and vegetable shipments and on cut flowers under § 301.48 of the Japanese beetle quarantine for the year 1943.

It has been determined that the active period of the Japanese beetle in its relation to fruits and vegetables has already ceased for the present season and that it is therefore safe to permit the unrestricted movement of fruits and vegetables from the regulated areas. Also that the reduced activity of the adult beetle warrants discontinuance of in-spection and certification of cut flowers after September 30, Therefore, pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the fourth proviso of § 301.48, Chapter III, Title 7, Code of Federal Regulations [Notice of Quarantine No. 48 on account of the Japanese beetle], it is ordered that the restrictions on the interstate movement of fruits and vegetables imposed by § 301.48-5 under Notice of Quarantine No. 48, revised effective January 14, 1943, be removed effective on and after September 9, 1943, and that the restrictions on the interstate movement of cut flowers imposed by § 301.48-6 under said quarantine, revised effective March 24, 1942, be removed effective on and after October 1, 1943. This order advances the termination of the restrictions as to fruits and vegetables provided for in § 301.48-5 from October 16 to September 9, 1943, and as to cut flowers, provided for in § 301.48-6, from October 16 to October 1, 1943, and applies to this season only. (Sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C._161; 7 CFR § 301.48)

Part 301—Domestic Quarantine Notices

TREATMENTS USED AS A DASIS OF CERTIFICATION UNDER JAPANESE DEETLE QUARANTINE

The quarantine on account of the Japanese beetle and regulations supplemental thereto provide that treatments which give appropriate safeguards may be used as a basis of certifying products regulated under the quarantine. Many different materials and procedures may be used to remove or make innocuous infestations of the Japanese beetle that may be in the products offered for movement. The effectiveness of these various materials and procedures differs with the product, the season of the year, and climatic conditions that may exist when they are applied. Because of this wide variation, and in order to permit the freest possible use of the various treatments and to take advantage of new facts as promptly as they are developed, it is desirable that modification be made in the system followed in the past of delaying use of specific treatments until they have been formally authorized. Inspectors will be currently instructed on the treatments that may be used as a basis of certification. They will also be instructed on their range of applicability, the exact details on the dosage, exposure interval, temperature, and other requirements needed to assure elimination of infestation, as well as data on the reaction of commodities to treatments when these are available. The instructions here issued give general information about the treatments, the uses of which are authorized.

All treatments must be made under the observation of a Department inspector, who will ascertain that all treatment requirements have been met and then issue certification for shipment,

provided the materials are protected from reinfestation as may be required.

Treatments have been determined on the basis of their efficiency in destroying Japanese beetle infestations. These treatments have had limited tests with respect to injury to plants or products that may be thus treated, and injury may occur to some plant materials. It is therefore understood that no liability shall attach either to the U.S. Department of Agriculture or to any of its employees in the event of injury to either plants or products. In the absence of available information as to injury, the owner should ascertain information as to possible injury to a specific lot of plant products by making test treatments of small lots in advance of applying the treatment to large lots.

The inspector's relation to treatments that may be applied as a basis for certification of any material restricted by the quarantine is to supply full information concerning them and to see that the work is carried out as required to assure elimination of infestation. The owner or shipper should recognize this and understand that he is to furnish the equipment and materials used for applying the treatments which are carried out under the observation of the inspector. The owner or shipper must assume all. risk of injury to the equipment and responsibility for personal injuries to all individuals other than Department employees.

§ 301.48b Administrative instructions to inspectors on treatments used as a basis of certification under the Japanese beetle quarantine. Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by § 301.48, and §§ 301.48-5-6-7, Chapter III, Title 7, Code of Federal Regulations (Quarantine No. 48 and Regulations 5, 6, and 7 of the Rules and Regulations supplemental thereto) inspectors are authorized to certify regulated articles when treated under their observation in accordance with instructions issued to them. Treatments are provided for four classes, as follows:

(a) Treatment of soil in absence of plants. Any surface soil or soil in bulk may be treated, provided it is friable, and provided the treating material can be applied safely and under conditions which will assure that various stages of the Japanese beetle that may be included in such soil will be rendered innocuous. The following kinds of materials may be used in applying such treatment: Carbon disulphide; lead arsenate; methyl bromide; methyl bromide solution; and naphthalene.

.(b) Treatment of soil about roots of plants before digging. Soil of any type

may be treated, provided it is friable and provided the treatment can be applied so as to render stages of the Japanese beetle on parts of soil that may adhere to roots of the plant innocuous. The following materials may be used in such treatments: Carbon disulphide; lead arsenate; and methyl bromide.

(c) Treatment of soil about roots of plants after digging. Soil of any type may be treated, provided it is friable, and provided that conditions under which the treating material is used will render stages of the Japanese beetle that may be in the soil innocuous. The use of the following materials for such treatments is authorized: Carbon disulphide; hot water; paradichlorobenzene; methyl bromide; and ethylene dichloride.

(d) Treatment of fruits and vegetables. Fruits and vegetables may be treated with fumigants under conditions that will assure that any stages of the Japanese beetle that may be included in the product are rendered innocuous. In applying these treatments it is important that the chamber in which the treatment is applied is constructed in a manner to assure that the fumigant will be effective. The following materials may be used for fumigation: Carbon disulphide; ethylene oxide; methyl bromide; hydrocyanic acid gas; and calcium cyanide.

This revision of § 301.48b [B. E. P. Q. 499, as amended! supersedes all previous instructions to inspectors on the treatment of plants, fruits, vegetables, and soils under the Japanese beetle quaran-

(Sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161; 7 CFR § 301.48 and §§ 301.48-5-6-7)

Information in reference to approved treatments will be supplied to pest control officials and interested parties by inspectors or may be obtained by addressing inquiries to: U. S. Department of Agriculture, Bureau of Entomology & Plant Quarantine, 503 Main Street, East Orange, New Jersey.

Done at Washington, D. C., this 4th day of September 1943.

Effective September 10, 1943.

Chapter XI-War Food Administration (Distribution Orders)

[FDO 75-2, Amdt. 2]

PART 1410-LIVESTOCK AND MEATS

BEEF REQUIRED TO BE SET ASIDE

Distribution Order 75-2.Food § 1410.18, as amended (8 F.R. 11325, 11890), is further amended to read as fol-

§ 1410.18 Beef required to be set aside—(a) Definitions. When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent thereof, the definitions contained in Food Distribution Order 75 (8 F.R. 11119), and Food Distribution Order 75–1 (8 F.R. 11327), shall apply when

such terms are used herein.

(b) Quantity; processing. Notwithstanding the provisions of Food Distribution Order 75–1 and the provisions of the order of the Director issued on September 1, 1943 (8 F.R. 12122), partially suspending certain provisions of that order, no Class 1 slaughterer shall deliver meat unless he shall:

(1) Set aside, reserve and hold for delivery to the Army, Navy, Marine Corps and Coast Guard of the United States, War Shipping Administration, and the agencies which are the subject of Food Distribution Regulation 2 (8 F.R. 7523), and subject to the provisions thereof, 45 percent of the conversion weight of each week's production of beef obtained from the slaughter of steers and heifers, the carcasses of which meet Army specifications for carcass beef or frozen boneless

(2) Bone in accordance with Army specifications for frozen boneless beef not less than 80 percent of the beef set aside. reserved and held in accordance with the requirements of paragraph (b) (1) hereof: Provided, however, That the Order Administrator may exempt, wholly or partially, any Class 1 slaughterer from the boning requirement provided for in this paragraph (b) (2) upon a proper showing that said slaughterer (i) does not have adequate facilities for boning, or (ii) does not have, or is unable to obtain, sufficient personnel to bone said beef, or (iii) is unable to comply with this requirement for any reason which appears to the Order Administrator to warrant such exemption.

(c) Storage; packaging. Any beef, set aside and reserved in accordance with the requirements of this order until delivered shall be stored in such manner as to maintain the quality thereof. Such beef shall be prepared and packaged in accordance with Army specifications for carcass beef or frozen boneless beef.

(d) Credits allowed on deliveries. Deliveries of beef of the class and grade required to be set aside, may be credited against the requirements of (b) (1) or (b) (2) hereof, as follows:

(1) Carcass beef, not exceeding the amount authorized to be set aside as carcass beef under (b) (1) and (b) (2), delivered to any person or agency enumerated in (b) (1) hereof, may be credited against the requirements of (b) (1).

(2) Boneless beef delivered to any person or agency enumerated in (b) (1) hereof, may be credited against the set aside requirements of (b) (1) and the boning

requirements of (b) (2).

*(3) Any beef which is stamped by a representative of the United States Army and delivered to any processor for use in the fulfillment of a contract for boneless beef with any person or agency enumerated in (b) (1) hereof, may be credited against the set aside requirements of (b) (1) and the boning requirements of (b) (2) hereof.

No credit shall be allowed for such deliveries when made to processors un-

less within 10 days after delivery, the slaughterer obtains a certificate signed by the processor, acknowledging receipt of the meat by him and containing the following:

The name and address of both parties; The date or dates of delivery;

The contract number of the contract between the processor and the person or agency specified in (b) hereof; and

A statement by the processor that the beef so delivered will be or has been used in the fulfillment of such contract. The slaughterer shall endorse on such certificate the conversion weight of such beef, and shall retain the certificate for delivery to the Director upon request. All statements contained in or accompanying such certificates shall be deemed representations to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false. (This record-keeping requirement has been approved by the Bureau of the Budget in accordance with

the Federal Reports Act of 1942.)
(e) Existing contracts. The provisions of this order shall not be construed as reducing the amount of meat which any Class 1 slaughterer is required to offer or to deliver under any existing contract with the agencies named in (b) hereof, or with the Food Distribution Administration, War Food Administration, (including, but not restricted to, the Federal Surplus Commodities Corporation), the United States Maritime Commission or the Veterans' Administration; but any meat required to be delivered after the effective date of this order to such agencies pursuant to pre-existing contracts other than those entered into with the Food Distribution Administration, War Food Administration, the United States Maritime Commission or the Veterans Administration after June 11, 1943, may be used as a credit against the amount of meat required to be set aside or boned pursuant to the provisions of this order.

This amendment shall become effective at 12:01 a. m., e. w. t., September 13, 1943: Provided, however, That any Class 1 slaughterer who, between August 15 and August 30, 1943 delivered carcass beef stamped by a representative of the United States Army, to any processor for use by him in the fulfillment of a contract for boneless beef with a person or agency specified in (b) (1) hereof, shall be entitled to credit such deliveries as provided in (d) hereof if, on or before september 9, 1943, he has obtained a certificate in accordance with the provisions of (d) hereof.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under Food Distribution Order 75–2, as amended, prior to the effective date of this amendment, all provisions of Food Distribution Order 75–2, as amended, in effect prior to this amendment shall be deemed in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, or liability.

PART 125-STUDERTS

EXTENSION OF STAY OF STUDENTS AND THE APPROVAL OF SCHOOLS ATTENDED BY THEM

SEPTEMBER 4, 1943

Pursuant to the authority contained in section 23 of the Act of February 5, 1917 (39 Stat. 892; 8 U.S.C. 102); section 24 of the Act of May 26, 1924 (43 Stat. 166; 8 U.S.C. 222); section 1 of Reorganization Plan No. V (5 F.R. 2223); section 37 (a) of the Act of June 28, 1940 (54 Stat. 675; 8 U.S.C. 458); § 90.1, Title 8, Chapter I, Code of Federal Regulations (8 F.R. 8735); and all other authority conferred by law, the following amendments of Part 125, Title 8, Chapter I, Code of Fed-

eral Regulations are hereby prescribed: Section 125.2 is amended to read as

§ 125.2 Students; extension of stay. Applications to extend period of temporary admissions of bona fide students pursuant to § 125.1 shall be prepared on Form I-535 and submitted to the officer in charge at the port of arrival at least 60 days prior to the expiration of the period for which admitted. The application shall contain all the data specified in the form and must be accompanied by applicant's passport or document in lieu of passport, valid for departure to alien's own or some other country, for at least the time of the requested extension. Where the officer in charge is satisfied that the alien is a bona fide student and if the passport, or document in lieu of a passport acceptable under consular regulations, is valid as above described, the extension may be granted without referring the application to the district head. Where the officer in charge concludes that the application should not be granted, the application shall be forwarded to the district head for determination, the application to be accompanied by a statement of reasons for such reference. Where the district head concludes that the application should not be granted, he shall forward it to the Central Office for decision, with a statement of the reasons for his conclusion. (47 Stat. 524; 8 U.S.C. 215)

Section 125.5 is amended to read as

§ 125.5 Schools; conditions for approval. No petition for approval as a school for immigrant students shall be considered unless such petition is accompanied by the written agreement of the school, college, academy, seminary, or university seeking such approval, to report in writing to the officer in charge at the port of arrival, immediately upon the admission of an immigrant student to such institution, the name, age, and local address of such student; the name and complete address of a friend or relative of such student in the United States; the date when such student was admitted; the course of study to be pursued by him; and at the termination of the attendance of such student, to forthwith report, in writing, to the Attorney General through the officer in charge at the port of arrival the date when and the reasons why such attendance was terminated. The foregoing conditions for approval of schools are hereby made applicable to all such approvals heretofore granted and the continuance of approval of a school will depend on the observance of this regulation. PART 379—CERTIFICATE OF DERIVATIVE CITIZENSHIP

LUSCELLANEOUS ALIENDMENTS

SEPTEMBER 4, 1943.

Pursuant to the authority conferred by section 327 of the Nationality Act of 1940 (54 Stat. 1150; 8 U.S.C. 727); section 37 (a) of the Act of June 28, 1940 (54 Stat. 675; 8 U.S.C. 458); § 90.1 of Title 8, Chapter I, Code of Federal Regulations (8 F.R. 8735); and all other authority conferred by law, the following amendments to Part 379, Title 8, Chapter I, Code of Federal Regulations, are hereby prescribed:

The following sentence is inserted as the antepenultimate sentence in § 379.2: "The applicant shall not be required to furnish a translation of any such documents written in a foreign language."

Section 379.6 is amended to read as follows:

§ 379.6 Evidence and investigation. The applicant and the person through whom he claims to have derived citizenship shall be questioned under oath by the examiner for the purposes of identification and to clarify any points in controversy on the basis of the information submitted in the application. If the sworn application form, supporting documentary evidence, records of the Service, the testimony of the person through whom citizenship is claimed, and the testimony of the applicant establish the applicant's claim to derivative citizenship, no other witnesses shall be required otherwise, such number of credible witnesses, preferably citizens of the United States, as may be deemed necessary shall be questioned under oath by the examiner concerning the facts of the applicant's alleged citizenship. If the person through whom the applicant claims citizenship is deceased or otherwise unavailable, the testimony customarily required of him may be furnished by a qualified witness. The testimony heard shall not be reduced to writing in verbatim form except in cases where neither primary nor secondary documentary evidence is available to establish some essential fact concerning the applicant's citizenship and except in cases where it appears that criminal proceedings might be instituted as a result of perjured statements. Any facts deemed necessary to the investigation relating to the birth, death, marriage, divorce, or identity of any person involved therein shall be established by official copies of public records or church records if such copies are available or, can be obtained. If the examining of-ficer is satisfied that the applicant has made a reasonable effort to procure such documentary evidence and that it is not available or cannot be procured without undue hardship to such applicant, the examining officer may receive and consider any other evidence which the applicant may present. The burden of proof to establish his derivative citizenship shall at all times be upon the applicant. In presenting his proof, he shall be entitled to the benefit of any records concerning him which are in the custody of the Service and copies of, or informa-, tion from, any such records may be made available to the officer of the Service passing upon the application, without payment of fee by the applicant. At the examination, the examining officer shall orally review the application with the applicant. Any necessary changes in it shall be consecutively numbered and actinowledged in writing by the applicant. When no longer required, the original documents shall be returned to the applicant if photostatic or other copies thereof have been supplied by him for the record. If the examiner is satisfied as to the authenticity of the documents and is satisfied that such photostatic or other copies are true and correct, he shall return the original documents to the applicant at the conclusion of the examination and incorporate the copies into the record which is submitted to the Central Office. (Section 339, 54 Stat. 1160; 8 U.S.C. 739)

The following is inserted after the first sentence in § 379.7:

Where any issue of law or fact is raised by the evidence, the examining officer shall summarize the evidence and prepare a report thereon to accompany the Form N-635. If the original documents were returned to the applicant at the conclusion of the examination, the examiner shall place a notation on Form N-635 showing that the copies were compared with such original documents and were found satisfactory and that the original documents were returned to the applicant.

The following sentence is inserted after the first sentence in § 379.8:

If the applicant has assumed and is known by a name other than his true name but has not had his name changed in accordance with the law of the jurisdiction where he assumed the new name and, therefore, is not legally entitled to use the assumed name, the certificate of derivative citizenship shall be issued in the applicant's true name followed by the words "also known as" followed by the assumed name, but in such a case the applicant shall be required to sign only his true name on the certificate and on the photographs submitted with his application.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this cubchapter issued under sec. (2) (a), 64 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 PR. 329; E.O. 9125, 7 PR. 2719; W.P.B. Reg. 1 as amended March 24, 1943; 8 FR. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 FR. 6727.

PART 3270-CONTAINERS 1

[Limitation Order L-239 as Amended Sept. 10, 1943]

FOLDING AND SET-UP LOXES

The fulfillment of requirements for the defense of the United States has created shortages in the supply of materials entering into the production of folding and set-up boxes for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3270.29 Limitation Order L-239.

Definitions

(a) Definitions. (1) "Folding box" means any collapsible container, or part thereof, made of paper or paperboard, excepting solid fibre or corrugated shipping containers not made on folding box machinery.

(2) "Blank" means any sheet of paper or paperboard, cut to shape and creased

or scored for the purpose of being used as a box or part thereof.

(3) "Set-up box" means a non-collapsible or rigid container, or part thereof, made of paper or paperboard, excepting cups, pails, and solid fibre or corrugated shipping containers not made on set-up box machinery.

(4) "Pail" means a wedge shaped, folded, liquid-tight, paper container.

(5) "Box" unless otherwise specified, includes blanks, folding boxes, set-up boxes, palls and parts thereof.
(6) "Work in process" means any management for the process of the process of

(6) "Work in process" means any material for physical incorporation in boxes, on which actual box making operations have been stafted. No preparatory work such as art work, engravings, electrotypes, dies, or forms shall be deemed "work in process".

(7) "Virgin wood pulp" means pulp manufactured either by mechanical or chemical means from coniferous or

broadleaf trees.

(8) "Gage list" means any gage list set forth in United States Department of Commerce Simplified Practice Recommendation R44-36 entitled "Box Board Thickness".

(9) "Multiple container" means a box containing a number of separately packaged items of the same commodity.

Restrictions

(b) General restrictions—(1) Restrictions on use of metal. No person shall manufacture or incorporate in the manufacture of boxes:

(i) Any metal bails or metal handles

for boxes, or

(ii) Metal mailing clips or fasteners for boxes customarily known as mailing containers.

(2) Restrictions on manufacture of seasonal boxes and sleeves. No person shall manufacture:

(i) Any box for seasonal or other special purpose having a greater pulp content or area or weight of paper or paperboard than contained in the usual commercial box for like contents.

(ii) Any sleeves or extra containers for seasonal or other special purposes unless also required for the usual com-

mercial box for like contents.

(iii) Exception. The restrictions of paragraphs (b) (2) (i) and (ii) shall not apply to boxes in which are packed two or more commodities usually separately packed, except to the extent that said paragraphs (b) (2) (i) and (ii) are made applicable by any-schedule.

(3) Restrictions on dummy boxes. No person shall manufacture any commercial display box simulating a package and not intended for packaging purposes, or use for display purposes, any box not previously used for packaging.

(4) Restrictions imposed by separate schedules. All persons shall observe the restrictions and other provisions which are and may be imposed from time to time by the War Production Board in all schedules hereto, all of which shall be parts of this order. No person shall

¹Formerly § 3162.1, Part 3162.

manufacture or commercially use any box in violation of any provision of this order. No person shall manufacture, sell, or deliver any box which he knows or has reason to believe will be used in violation of any provision of this order.

- (5) Restrictions on manufacture of boxes from virgin wood pulp. No person shall manufacture any box from any of the following grades of paperboard listed in United States Department of Commerce Simplified Practice Recommendation R44-36 if any virgin wood pulp is contained in any of such paperboard: plain chipboard, filled news board, single news vat-lined chip, bending chip board, colored suit box chip back, solid jute, cracker shell board, or solid news.
- (6) Restrictions on pulp inner liners. Except as provided in paragraph (b) (8) below, no person shall commercially use, on the inside surface of any folding box, any liner made from (a) virgin wood pulp or (b) from any waste paper (including, but not limited to, white cuttings and manila cuttings) which can be processed to simulate the appearance of a virgin wood pulp liner.
- (7) Restrictions on kraft board. Except as provided in paragraph (b) (8) below, on and after June 22, 1943, no person shall manufacture any folding box from solid or filled kraft paperboard. "Solid or filled kraft paperboard" means any grade of paperboard, or paperboard and paper, containing, in its total fibre furnish, 50% or more virgin wood pulp or substitute high grade waste paper.
- (8) Permitted uses of pulp inner liners and kraft board. The restrictions of paragraphs (b) (6) and (b) (7) above shall not apply to boxes designed for use as outer containers in parcel post or express shipments. They also shall not apply to boxes designed for packaging any of the following products:
 - (i) Wet or oily foods.
- (ii) Products containing, by weight, 25% or more of metal.
- (iii) Any other product determined by the War Production Board as requiring the protection of such liner or paperboard to ensure its delivery in merchantable condition to the ultimate consumer. Application for such determination may be made by the prospective packager by letter stating the pertinent facts.

Exceptions

- (c) Exceptions—(1) Material completed or in process. (i) No restriction hereof shall apply to boxes completely manufactured or made from work in process prior to the effective date of such restriction.
- (ii) Where any restriction hereof limits the type, grade; or quality of paperboard which may be used in manufacturing any box, such restriction shall not apply to the use of any paperboard man-

ufactured prior to the effective date of such restriction.

(iii) Where any restriction hereof limits the use of sheet-lined paperboard in manufacturing any box, such restriction shall not apply to the use of any paperboard sheet-lined prior to the effective date of such restriction.

(2) Boxes for certain Government agencies. The restrictions of this order shall not apply to boxes manufactured to meet the packaging specifications of, and delivered to or for the account of, the United States Army, Navy, Maritime Commission, War Shipping Administration, or any agency imposing such specifications for material to be delivered under the Act of Congress of March 11, 1941, entitled "An Act for the Defense of the United States" (Lend-Lease Act).

Note: Former paragraph (d) through (h) redesignated (f) through (j); paragraphs (d) and (e) added Sept. 10, 1943.

Inventory. Restrictions

- (d) Inventory restrictions. On and after September 11, 1943, no person shall accept, or have set aside, any quantity of boxes which will increase his inventory of a particular box item to more than either 25 tons or a 90-day supply, whichever is larger. This restriction shall not prevent any person from accepting any boxes which were in transit to him on or before September 11, 1943. For purposes of this paragraph, "box item" means any folding or set-up box of a particular size and-type for a particular product; "inventory" means all quantities a person has on hand, in transit, or set aside by suppliers at his request or with his knowledge; and "accept delivery", as applied to a person who makes boxes for his own use, means completion of their manufacture.
- (e) Delivery restriction. No box manufacturer shall deliver boxes to any person if he has reason to believe that person is not entitled to accept them.

Miscellaneous Provisions

(f) Applicability of priorities regula-This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(g) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for appeal.

(h) Records. All persons affected by this order shall keep for at least two years records concerning inventory, production, purchases and sales, and shall make reports on same if required.

(i) Communications. All reports required to be filed hereunder and all communications concerning this order or any schedule issued supplementary hereto shall, unless otherwise directed, be addressed to War Production Board, Containers Division, Washington, D. C., Ref. L-239.

(j) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is ' guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assist-

Issued this 10th day of September 1943. WAR PRODUCTION BOARD, By J. Joseph Whelan, Recording Secretary.

(c) Packaging restrictions—(1) Double-packing. On and after September 11, 1943, no knit wear manufacturer shall "double-pack" any knit wear. "Double-pack" means packaging the same piece of merchandise in both a paper envelope and a box (folding or setup).

(2) Box findings. On and after September 11, 1943, no knit wear manufacturer shall use any of the following inner box findings in boxes for packaging knit wear: fly leaves, platforms, paper folders, paper bands, paper stiffeners, paperboards. However, paper stiffeners and either paper folders and paper bands (if available) may be used for women's rayon hosiery and for rayon underwear.

(3) Rayon hosiery. On and after September 11, 1943, no hosiery manufacturer shall use any box made of white wood vat lined paperboard for packaging any hosiery except women's rayon hosiery.

(4) Exceptions. The packaging restrictions of this paragraph (c) shall not apply to the use of any supplies in a knitwear manufacturer's inventory (including inventory set aside for him by his suppliers) on September 11, 1943. The restrictions shall also not apply to the use of any boxes which a supplying box manufacturer is entitled to make by virtue of the exceptions allowed in paragraph (c) of Order L-239.

(d) Exceptions for mail or express distribution. The minimum-size restrictions of paragraph (b) (3), the double-packing restriction of paragraph (c) (1), and box-findings restrictions of paragraph (c) (2)

shall not apply to the manufacture and packaging of knitwear in boxes for mail or express delivery to mail order or direct distribution retail purchasers.

SCHEDULE VII-LAUGURE BOXES

Table I—Laundry boxes. (a) No box for packaging laundry shall be made from any grade of paperboard other than the grades, without virgin wood pulp, listed in paragraph (b) (5) of this Order L-239.

SCHEDULE VIII-CANDY BOXES

Table I-Set-up candy boxes-(a) Definition:

(1) "Set-up candy hox" means any cetup hox designed for packaging chocolates or other candles, with the exception of (a) hoxes of less than ½-1b. capacity or more than 5-lb. capacity and (b) hoxes for har and bulk goods.

(2) "Finished weight" means the weight of the finished box, including all trays, partitions, decorations (made of any material), and other findings (except paper cups), but not including candy contents.

(b) Manufacturing restriction. On and after September 11, 1943, no percon shall make any "set-up candy box" which does not conform with the specifications of this Table I.

(c) Maximum ucight for standard sizes. The "finished weight" of a "cet-up candy box" of any size listed below shall not be more than the maximum specified below for that size (subject to a 8% tolerance for variation in paperboard weight):

1. Box size (net content capacity) 22 4 lb. 1 lb. 11½ lb. 2 lb. 2½ lb. 3 lb. 5 lb. 2 Maximum finished weight of box. 6 cz. 7½ cz. 5% cz. 10½ cz. 11½ cz. 13 cz.

(d) Maximum weight for odd sizes. For a "set-up candy box" of any size not listed in paragraph (c) above, the maximum "finished weight" shall be the same as for the pearest

standard size listed in paragraph (c). (For example, a 1 lb. 2 cz. box has the came maximum as a 1 lb. box; a 1 lb. 6 cz. box has the same maximum as a $1\frac{1}{2}$ lb. box).

- (e) Outer containers. No box designed as an outer container for one or more "set-up candy boxes" of any size shall be made except in conformity with the following specifications:
- (1) Paperboard. Paperboard of no hetter grade or quality better than unlined chip or unlined news.

[Limitation Order L-216 Schedule III, as Amended Sept. 3, 1943] ²

PLIERS AND MIPPERS

§ 3114:4 Schedule III to Limitation Order L-216—(a) Definitions. For the purpose of this schedule:

(1) "Pliers" means any pliers of any type specifically mentioned in Appendix A of this schedule. Pliers of a type not specified in Appendix A of this schedule are not subject to its provisions.

(2) "Nippers" means any nippers or pincers of any type specifically mentioned in Appendix A of this schedule. Nippers of a type not specified in Appendix A of this schedule are not subject to its provisions.

(3) "Producer" means any person engaged in the production of pliers or nippers.

(4) "Distributor" means any person who purchases pliers or nippers for purposes of resale, excluding persons who purchase pliers or nippers for resale to their own employees and persons who purchase pliers or nippers for resale as accessories for delivery with or use with items of their own manufacture.

(5) "Ultimate consumer" means any person who purchases pliers or nippers other than a distributor.

¹This document is a correct restatement of L-216, Schedule III, as Amended September 3, 1943, which appeared in the Federal Register of September 4, 1943, page 12175, and reflects the order in its corrected form as of September 3, 1943.

(6) "Alloy steel" means only those alloy steels which are in the series listed in Exhibit B to General Preference Order E-6.

(7) "Nominal", when applied to any over-all length specification contained in this schedule, means that such overall length specification is subject to a production tolerance or allowance of one-half inch over or one-half inch under the given specification: Provided, That a "nominal" specification does not permit the production of two different size pliers or nippers under the one specification.

(b) Restrictions on production. (1) No producer shall commence processing any carbon or alloy steel for the production of any pliers or nippers unless such pliers or nippers when completed shall conform to all provisions of this schedule which are applicable thereto.

(2) Where any provision of this schedule prohibits the production of any pliers or nippers heretofore produced by a producer and such producer believes this imposes unreasonable hardship upon him, application for specific permission to continue the production of such pliers or nippers for the life of usable dies acquired by the producer prior to March 25, 1943, may be made to the War Production Board. Application for such permission may be made by filing a letter, in triplicate, setting forth a detailed description of the pliers or nippers for which permission to continue production is sought, the number of usable dies for such pliers or nippers on hand, the date of their acquisition, and the approximate number of pliers or nippers, or parts therefor, which such dies are capable of producing.

(c) Limitations on use of alloy steel. No producer shall make any pliers or nippers out of alloy steel except where alloy steel is specifically permitted by

Appendix A of this schedule.

(d) Limitation on styles, grades and dimensions. Except where specifically permitted by Appendix A of this schedule, no producer shall:

(1) Make more than one style or pattern of any type of pliers or nippers.

(2) Make more than one grade of any type of pliers or nippers.

(3) Make any size pliers or nippers permitted by Appendix A of this schedule to more than one set of dimensions.

(e) Limitation on finishes. (1) Pliers and nippers may have finishes applied to them 'only to the following extent: They may be coated with oil or grease compound or chemical black, or lacquered, parkerized, or lead or zinc coated.

(2) Polishing is prohibited except to the extent necessary to make the pliers or nippers usable for the purposes intended; in no event shall any pliers or nippers be polished on more than one wheel, or one belt, or one similar polishing device.

(3) Except where specifically permitted by Appendix A of this schedule, no producer shall knurl or impress the handles of any pliers or nippers.

(f) Limitations on sizes and inventories. No producer shall make any pliers or nippers of any type specified in Appendix A of this schedule except in the sizes therein authorized and for the purposes therein set forth.

(g) Selection of sizes for production. If, with respect to any pliers or nippers, it is indicated that one or more sizes on Appendix A shall be selected, each producer shall select such sizes as he may desire to manufacture within the limitations prescribed, not to exceed the number so indicated and shall forthwith give notification of his selection in writing to the War Production Board. Tools Division, Reference: L-216 Schedule III. The producer may thereafter apply to the War Production Board for leave to amend such selection but unless and until such leave is granted by the War Production Board in writing, the original selection shall remain binding upon such_ producer.

(h) Limitation on segregation by brand or trade name. Notwithstanding the provisions of any contract or purchase order, no producer shall hold or, reserve pliers or nippers for a particular customer if deliveries under orders from other customers entitled to preference will be delayed thereby, whether or not such pliers or nippers are stamped or marked with a special brand or trade

(i) Exemptions. Notwithstanding any other provisions of this schedule, pliers or nippers the production of which has been commenced prior to May 31, 1943 are exempt from the provisions of this schedule, provided such pliers or nippers will be completed within ninety days after May 31, 1943.

(j) Applicability of other orders. All the provisions of General Preference Order E-6 which are not inconsistent with the provisions of this schedule shall apply to the production and delivery of pliers and nippers.

Issued this 3d day of September 1943. WAR PRODUCTION BOARD.

By J. JOSEPH WHELAN. Recording Secretary.

Chapter XI-Office of Price Administration

PART 1439-UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 468]

BROOM CORN

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation. issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1439.4 Maximum prices for broom corn. Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Maximum Price Regulation No. 468

^{*}Copies may be obtained from the Office of Price. Administration.

[Broom Corn], which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1439.4 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 FR. 7871; E.O. 9328, 8 FR. 4681.

MAXIMUM PRICE REGULATION 468—BROOM CORN

CONTENTS

Sec.

- Prohibition against transactions at prices in excess of maximum prices.
- To what products, transactions and geographical areas this regulation applies.
- 3. Producers' maximum prices for broom corn.
- 4. Enforcement.
- 5. Records and reports.
- 6. Prohibited practices.
- 7. Adjustable pricing.
- 8. Petitions for amendment.

SECTION 1. Sales of broom corn at higher than maximum prices prohibited.

(a) On and after September 10, 1943, regardless of any contract or other obligation, no producer of broom corn shall sell or deliver and no person, in the course of trade or business, shall buy or receive any broom corn from the producer thereof at prices higher than the maximum prices established by this regulation, and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and

paid.

Sec. 2. To what products, transactions and geographical areas this regulation applies—(a) What products and transactions are-covered by this regulation. This regulation applies to producers' sales and deliveries of broom corn of all types and qualities, except broom corn produced outside the continental United States.

(b) Export sales. The maximum prices at which a person may export broom corn shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

(c) What geographical areas are covered. This regulation shall be applicable to the continental United States but not to the territories and possessions of the United States.

Sec. 3. Producers' maximum prices. The following are the maximum prices applicable to sales and deliveries of broom corn by the producer thereof:

The above maximum prices are net cash, f. o. b. shipping point. The term "shipping point" means the point at which the broom corn is loaded on a truck, railroad car or other conveyance for shipment from the producer to the purchaser.

The term "producer" means a person who grows or raises broom corn. It shall include a landlord or landowner with respect to sales of broom corn received by him as rental for the land upon which the broom corn was produced.

SEC. 4. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for revocation of license provided for by the Emergency Price Control Act of 1942, as amended.

Price Control Act of 1942, as amended.
SEC. 5. Records and reports—(a)
Records. Every person shall, with respect
to every sale, delivery or purchase of
broom corn for which a maximum price
is established by this regulation, keep
and make available for examination by
the Office of Price Administration
records of the same kind as he has
customarily kept relating to the prices,
charged for such sales or deliveries. All
such records must be kept for inspection
by the Office of Price Administration for
so long as the Emergency Price Control
Act of 1942, as amended, is in effect.

(b) Reports. Any person affected by this regulation shall submit such reports as the Office of Price Administration may, from time to time, require.

Sec. 6. Prolibited practices. Any practice which is used as a device to effect a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, service charges, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

Sec. 7. Adjustable pricing. Any persons may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by the official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 8. Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,2 issued by the Office of Price Administration.

This regulation shall become effective September 10, 1943. Norm: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1842.

Issued this 9th day of September 1943.

Subchapter D-Tank Vessels AMENDMENTS TO REGULATIONS

By virtue of the authority vested in me by R.S. 4405, 4417a, as amended (46 U.S.C. 375, 391a), and Executive Order 9083, dated February 28, 1942 (7 F.R. 1609), I find that an emergency exists and the following amendments to the Tank Vessel regulations are necessary in the conduct of the war:

> PART 32-REQUIREMENTS FOR HULLS, MACHINERY, AND EQUIPMENT

Section 32.9-5 is amended to read as follows:

§ 32.9-5 Alarm bells-(a) New tank ships—T/ALL. All tank ships of over 100 gross tons, the construction of which is begun on and after September 15, 1943, shall have all sleeping accommodations and machinery spaces equipped with a sufficient number of alarm bells so located as to warn all occupants. The system shall operate from a continuous source of electric energy capable of supplying the system for a period of at least 8 hours without being dependent upon the main, auxiliary, or emergency generating plants. Each bell shall produce a signal of a tone distinct from that of other bell signals in the vicinity and shall be independently fused with each of these fuses located above the bulkhead deck. The bells shall be controlled by a manually-operated contact maker located in the pilothouse, or, if specific approval is given by the Commandant, in the fire control station. The characteristics of the contact maker shall be such that it possesses:

(1) Positive contact

(2) Watertightness (when located in open spaces subject to weather)
(3) Means whereby its electrically open

or closed position can be determined by sense of touch

(4) Means to effect a make-and-break circuit for signaling and

(5) Self-maintaining contacts.

(b) Existing tank ships—T/ALL. All existing tank ships, the construction of which is begun prior to September 15, 1943, shall have all sleeping accommodations equipped with a sufficient number of alarm bells so located as to warn all the occupants. The alarm bells, if electric, shall be operated from an open switch from the pilothouse or bridge. The bells shall be of such size, character, and construction, as to provide an alarm throughout the spaces for which they are provided.

(c) B/OC. Each tank barge of over 100 gross tons, where the crew is divided into watches for the purpose of steering the vessel, shall be provided with a suitable alarm bell installation.

PART 33-LIFESAVING APPLIANCES

Section 33.3-1 (x) is amended to read as follows:

§ 33.3-1 Tank ship lifeboat equipment; ocean and coastwise-T/OC * * *

(x) Sea anchor. On and after 1 January, 1944, all sea anchors shall be of an approved type.

Note: Sea anchors installed prior to 1 January, 1944, meeting the requirements of regulations effective at the time of installation may be continued in use if in cerviceable condition.

Section 33.3-2 (s) is amended to read as follows:

§ 33.3-2 Tank ship lifeboat equip-. ment; Great Lakes—T/L. • • • (s) Sea anchor. On and after 1 Jan-

uary, 1944, all sea anchors shall be of an approved type.

Note: Sea anchors installed prior to 1 January, 1944, meeting the requirements of regulations effective at the time of installation may be continued in use if in serviceable condition.

Section 52.5-3 (h) is amended to read as follows:

§ 52.5-3 Computations. • •

(h) The maximum working pressure and minimum thickness of dished, caststeel heads, where permitted, shall be calculated by formulas (11) and (12).

PART 56-FUSION WELDING

Section 56.20-10 (g) is amended to read as follows:

§ 56.20-10 Joints. * *

(g) Holes. (1) Unreinforced holes may be machine-cut through welded seams which have been stress relieved and radiographed. The joint efficiency as welf as the ligament efficiency shall be considered in calculating the required thickness.

(2) Tubes may be rolled and expanded in such unreinforced holes, or such holes may be threaded: Provided, That in the portion of the welded joint in which the holes are cut the following additional requirements are fulfilled:

(i) The welds shall be examined by the paramagnetic powder method on both sides and found to be satisfactory.

(ii) The weld shall contain no slag inclusion or defect longer than 0.15T (where T is the thickness of the weld), but in no case greater than % inch.

(3) If either or both items (i) and (ii) are not complied with, the unreinforced holes for threaded connections or for rolled or expanded tubes may not be placed closer than 1/4" to the edge of the fused metal, and no deduction need be made in the maximum allowable working pressure computed for the same tube layout without a circumferential weld.

PART 95-CAR SERVICE

ICING OF CERTAIN FRUITS AND VEGETABLES FROM CERTAIN WESTERN STATES

At a session of the Interstate Commerce Commission; Division 3, held at its office in Washington, D. C., on the 8th day of September, A. D. 1943.

Upon further consideration of Service Order No. 147 (8 F.R. 11390) of August 13, 1943, and it appearing that an acute shortage of ice is affecting both the intrastate and interstate movement of perishables in refrigerator cars originating in points in Arizona, California, Colorado, New Mexico, Oregon, Utah, or Washington: in the opinion of the Commission an emergency exists requiring immediate action:

It is ordered, That: Section 95.317, icing restrictions on fruits and vegetables from western States of Service Order No. 147 (8 F.R. . 11390) of August 13, 1943, be amended by designating paragraph (a) therein as (a) (1), and by adding the States of Oregon and Washington to said amended paragraph (a) (1), also by adding a paragraph (a) (2) reading as follows:

(a) (2) No common carrier by railroad subject to the Interstate Commerce Act shall initially ice with more than enough ice to bring ice to ¾ of the re-frigerator car bunker capacity, a refrigerator car or cars loaded with fresh or green fruits, melons, or vegetables originating at and destined to any point or points in Oregon, or originating at and destined to any point or points in Washington. No reicing shall be allowed or permitted under this paragraph.

And by adding a note to said amended paragraphs (a) (1) and (a) (2) reading as follows:

Note: Restrictions on icing in paragraph (a) (1) and (a) (2) in Oregon and Washington shall apply only on fresh or green fruits, melons, or vegetables originating on the Northern Pacific Railway Company. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That this order shall become effective 12:01 a. m. September 9, 1943, that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Regíster.

PART 95-CAR SERVICE

DRY ONIONS FROM CERTAIN WESTERN STATES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of September, A. D. 1943.

It appearing, that Marvin Jones, Food Administrator, has issued August 27, 1943, Title 7—Agriculture, Chapter XI— War Food Administration, Food Distribution Order No. 77, Part 1405-Fruits and Vegetables, § 1405–22, effective at 12:01 a. m. e. w. t., August 31, 1943 (8 F.R. 11889–90), Which provides that "No person shall ship a quantity of dry onions in excess of one-hundred pounds * * * from a point within the states of California, Colorado, Idaho, Indiana, Michigan, Minnesota, New York, Nevada, North Dakota, Oregon, Utah, and Washington, to any other point either within or without said states unless the shipper thereof has obtained a permit to ship such onions from the Regional Director (or any employee of the U.S. Department of Agriculture designated by such Regional Director)"; that the Director of the Office of Defense Transportation has requested this Commission to take such action as it deems necessary to prohibit transportation thereof from such states to such states or other states, except by permit; the Commission is of the opinon that an emergency exists requiring immediate action:

It is ordered, That:

§ 95.29 (a) Definition. As used in this section the term "dry onions" means all onions except onion sets and onions with green tops.

(b) Permit required for transportation by common carrier by railroad or by common or contract carrier by motor vehicle of dry onions from or within certain states. No common carrier by railroad subject to the Interstate Commerce Act shall accept for transportation or move interstate or intrastate and no common or contract carrier by motor vehicle subject to the Interstate Commerce Act shall accept for transportation or move interstate any dry onions in quantities in excess of one-hundred pounds from or within the states of California, Colorado, Idaho, Indiana, Michigan, Minnesota, New York, Nevada, North Dakota, Oregon, Utah, or Washington, unless the shipper thereof presents a permit authorizing the shipment of such onlons as provided in Food Distribution Order No. 77, issued by the War Food Administrator on August 27, 1943 (8 F.R. 11889-90) supplements thereto or reissues thereof.

(c) Exemptions. The requirements of paragraph (b) of this section shall not apply to any transportation of onions for the shipment of which no permit is required by the provisions of Food Distribution Order No. 77, or by reason of any relief granted pursuant to § 1405.22 (e) of that order.

It is further ordered, That this order shall become effective at 12:01 a. m., September 13, 1943; that copies of this order and direction shall be served upon tariff publishing Agents for common and contract motor carriers serving the states of California, Colorado, Idaho, Indiana, Michigan, Minnesota, New York, Nevada, North Dakota, Oregon, Utah, or Washington, and upon the Association of American Railroads, Car Service Division, as agent of the rail-

roads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filling it with the Director, Division of the Federal Register. By the Commission, Division 3.

TITLE 50-WILDLIFE

Chapter I-Fish and Wildlife Service

PART 21—PACIFIC REGION NATIONAL WILD-LIFE REFUGES

RUBY LAKE NATIONAL WILDLIFE REFUGE, NEVADA

Under authority of section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222; 16 U.S.C. 715i), as amended, and in extension of § 12.3 of the Regulations for the Administration of National Wildlife Refuges under the jurisdiction of the Fish and Wildlife Service, dated December 19, 1940 (5 F.R. 5284), the following is hereby ordered:

§ 21.790 Ruby Lake National Wildlife Refuge, Nevada; fishing. Non-commercial fishing is permitted in the waters hereinafter specified of the Ruby Lake National Wildlife Refuge, Nevada, during the daylight hours, except during the migratory-waterfowl hunting season, in accordance with the provisions of the Regulations for the Administration of National Wildlife Refuges under the jurisdiction of the Fish and Wildlife Service, dated December 19, 1940 (5 F.R. 5284), and subject to the following conditions, restrictions, and requirements:

(a) Waters open to fishing. The waters, ponds, and creeks designated by suitable posting by the officer in charge of the refuge shall be open to the taking of game fish as permitted by state or

county law or regulation.

(b) State fishing laws. Any person who fishes within the refuge must comply with the applicable fishing laws and regulations of Elko and White Pine Counties and the State of Nevada. Fishing under this regulation shall be by hook and line (including rod and reel) only, as defined by State law.

(c) Fishing licenses and permits. Any person who fishes within the refuge shall be in possession of a valid fishing license issued by the State of Nevada, if such license is required, and a permit issued by the officer in charge of the refuge. The license and permit shall serve as a Federal permit for fishing in the specified waters of the refuge and must be

carried on the person of the licensee while so fishing. The license must be exhibited upon the request of any representative of the Nevada State Fish and Game Commission or of the Fish and Wildlife Service.

(d) Routes of travel. 'Persons entering the refuge for the purpose of fishing shall follow such routes of travel as may be designated by suitable posting by the

officer in charge of the refuge.

(e) Use of boats. The use of any boat, cance, or floating device of any description is prohibited on all waters of the refuge except for official purposes, except as designated by suitable posting by the officer in charge of the refuge.

(f) Bait restrictions. No person shall use live minnows or any other fish or any part thereof for bait while fishing in any of the waters of the refuge, and no one may have in his possession within the boundaries of the refuge any live minnows or any seine or net that may be

used in capturing minnows.

(g) Temporary restrictions. During periods of waterfowl concentrations on the refuge, fishing will not be permitted in such areas of the refuge as, in the judgment of the officer in charge, should be closed to fishing in order to provide adequate protection for such waterfowl concentrations and are posted suitably by such officer.

Dated: August 31, 1943.

PART 23—SOUTHWESTERN REGION NATIONAL WILDLIFE REFUGES

WICHITA MOUNTAINS WILDLIFE REFUGE, OKLAHOMA

Pursuant to authority contained in the Regulations for the Administration of the Wichita Mountains Wildlife Refuge, Oklahoma, dated December 2, 1936 (1 F.R. 2397), the following is hereby ordered:

§ 23.967a Wichita Mountains Wildlife Refuge, Oklahoma; fishing. Until further notice non-commercial fishing is permitted in the waters specified herein of the Wichita Mountains Wildlife Refuge, Oklahoma, during the open season each year as fixed by State law or regulation for lakes or waters in that section of the State wherein the Refuge is situated, in accordance with the provisions of the Regulations for the Administration of the Wichita Mountains Wildlife Refuge, dated December 2, 1936 (1 F.R. 2397), and subject to the following conditions, restrictions, and requirements:

(a) Waters open to fishing. The following-named waters of the refuge are hereby designated as areas open to fishing, and fishing on any other waters of the refuge will not be permitted: Caddo Lake, West Post Oak Lake, Treasure Lake, French Lake, all the lakes known as Fish Lakes on West Cache and Turkey Creeks from French Lake to Lost Lake,

Lost Lake. West Cache Creek from Lost Lake south to the refuge boundary fence, Jed Johnson Lake, that part of Rush Lake east of the big-game fence, Little Medicine Creek within the refuge boundary, that part of Elmer Thomas Lake within the refuge boundary, and Crater, Osage, Quanah Parker, and Burford Lakes together with the streams flowing south therefrom to the refuge boundary fence.

(b) State fishing laws. Any person who fishes within the refuge must comply with the applicable fishing laws and regulations of the State of Oklahoma. Fishing under this regulation shall be by hook and line (including rod and reel) only, as defined by State law, and the use of trot and set lines and other similar contrivances is prohibited. The regulations governing the size or length of fish caught and the number of fish that may be taken each day must be complied with by persons fishing within the refuge.

(c) Fishing licenses and permits. Any person who fishes in any of the aforesaid waters under the aforesaid conditions must be in possession of a valid fishing license issued to him in accordance with the provisions of the laws of the State of Oklahoma, if such license is required, which shall serve as a Federal permit for fishing in said waters. Said license must be carried on the person of the permittee when he exercises the privilege of fishing in said waters and must be exhibited upon the request of

any Federal or State officer authorized to enforce Federal or State fishing laws or regulations, or laws and regulations applicable to the refuge.

(d) Routes of travel. Persons entering the refuge for the purpose of fish-

ing shall follow such routes of travel as may be designated from time to time by suitable posting by the officer in

charge of the refuge.

(e) Use of boats. The use of boats or floating devices of any description is prohibited on all waters of the refuge except for official purposes by the Oklahoma State Game and Fish Commission and by representatives of the Fish and Wildlife Service authorized to enforce the laws and regulations applicable to the refuge or to fishing in Oklahoma: *Provided*, That boats, other than power or motorboats, may be used on Elmer Thomas Lake within the refuge under the supervision of the city of Lawton in accordance with, and subject to, such terms as may be prescribed in an appropriate permit by the superintendent of the refuge; and that authorized officials of the city of Lawton may utilize power or other boats in supervising such authorized boating activities on said lake.

(f) Temporary restrictions. During periods of waterfowl concentrations on the refuge, fishing or the use of boats of any description will not be permitted in such areas of the refuge as, in the judgment of the officer in charge, should be closed to fishing in order to provide adequate protection for such waterfowl

concentrations and are posted suitably by such officer.

(g) Revocation of previous regulations. The regulation governing fishing on the Wichita Mountains Wildlife Refuge, Oklahoma, approved by the Acting Director, Fish and Wildlife Service, on May 1, 1943 (8 F.R. 6005), is hereby revoked.

Dated: September 3, 1943.

Coal Mines Administration.

[Order No. T-35]

Adams, Rowe & Norman, Inc., et al. Order terminating government possession and control

SEPTEMBER 6, 1943.

The Operating Managers for the United States for the coal mines of the mining companies listed in Appendix A have advised the Coal Mines Administrator that the productive efficiency of each of those mines prevailing prior to the taking of possession by the Government has been restored, and have submitted factual evidence to that effect. Based on such evidence and advise, and after consideration of all the circumstances, I find that, in accordance with the provisions of the War Labor Disputes Act of June 25, 1943 (Pub. No. 89, 78th Cong. 1st Sess.), the possession and control by the Government of such mines should be terminated.

Accordingly, I order and direct that possession and control by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines and the distribution and sale of their products, be, and they are hereby, terminated and that there be conspicuously displayed at the mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

Notice: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Administrator from requiring the submission of information relating to operations during the period of Government possession and control as provided in section 40 of the Regulations for the Operation of Coal Mines under Government Control, as amended (8 F.R. 6655, 10712), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9340 (8 F.R. 5695)

may be concluded in an orderly manner; And provided further, That except as otherwise ordered, the appointments of the Operating Managers for the mines of the companies listed in Appendix A shall continue in effect.

HAROLD L. ICHES, Secretary of the Interior.

ORDER TERMINATING GOVERNMENT POSSESSION AND CONTROL

SEPTEMBER 6, 1943.

The Operating Managers for the United States for the coal mines of the mining companies listed in Appendix A have advised the Coal Mines Administrator that there has been no interruption in the operation of such mines since April 30, 1943, as a result of a strike or other labor disturbance, and have submitted factual evidence to that effect. Based on such evidence and advice, and after consideration of all the circumstances, I find that the possession and control by the Government of such mines are not necessary to insure the operation of such mines in the interest of the

"war effort," and that it is practicable to terminate the possession and control of such mines.

Accordingly, I order and direct that possession and control by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines and the distribution and sale of their products, be, and they are hereby, terminated and that there be conspicuously displayed at the mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

ALLBURN COLLIERIES CO., ET AL.

ORDER TERMINATING GOVERNMENT POSSESSION AND CONTROL

SEPTEMBER 9, 1943.

The Operating Managers for the United States for the coal mines of the

mining companies listed in Appendix A have advised the Coal Mines Administrator that the productive efficiency of each of those mines prevailing prior to the taking of possession by the Government has been restored, and have submitted factual evidence to that effect. Based on such evidence and advice, and after consideration of all the circumstances, I find that, in accordance with the provisions of the War Labor Disputes Act of June 25, 1943 (Pub. No. 89, 78th Cong. 1st Sess.), the possession and control by the Government of such mines should be terminated.

Accordingly, I order and direct that possession and control by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines and the distribution and sale of their products, be, and they are hereby, terminated and that there be conspicuously displayed at the mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

NOTICE: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Administrator from requiring the submission of information relating to operations during the period of Government possession and control as provided in section 40 of the Regulations for the Operation of Coal Mines under Government Control, as amended (8 F.R. 6655, 10712), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9340 (8 F.R. 5695) may be concluded in an orderly manner: And provided further, That except as otherwise ordered, the appointments of the Operating Managers for the mines of the companies listed in Appendix A shall continue in effect.

> HAROLD L. ICKES, Secretary of the Interior.

INTERIOR

[Order No. 1871]
PROCEDURE FOR REPORTING INVENTIONS BY
EMPLOYEES OF THE DEPARTMENT OF THE

Section 3 of Order No. 1763 of November 17, 1942, requires every invention

made subsequent to its date by an employee of the Department and considered by him to be patentable to be reported by such employee to the head of his bureau and by the head of the bureau to the Secretary of the Interior. This reporting shall be accomplished in accordance with the following procedure.

1. Report to Secretary and Attorney General. Inventions by employees which they consider to have been made within the scope of their governmental duties and inventions for which employees seek to have patent applications prosecuted without the payment of any fee under the act of March 3, 1883, as amended (35 U.S.C. sec. 45), shall be submitted to the Secretary's Office by means of a letter to the Attorney General transmitting the following documents: (a) an invention report, and (b) a certificate of the public interest in the use of the invention. The forms for the transmittal letter, the invention report, and the certificate which have been prepared in the Solicitor's Office should be used. The transmittal letter shall be prepared for the signature of the First Assistant Secretary and copies of the letter and its enclosures shall be designated as follows: one for the Secretary's Office, one for the Solicitor's office, one for the employee-inventor, and others for such persons in the bureau or office as it may designate. The transmittal letter shall include the name and location of the person in the bureau or office with whom the attorney in the Department of Justice handling the case may thereafter communicate.

If the employee believes the invention was not made by him within the scope of his governmental duties and if he does not desire a patent application to be prosecuted under the act of 1883, he shall nevertheless prepare an invention report and submit it to the head of his bureau for transmission to the Secretary.

2. Occasion for invention reports. An invention report shall be prepared by the employee-inventor for each invention and submitted through his supervisor to the head of the bureau or office. If the invention is the result of group work the report shall be made by the supervisor. An invention report shall be promptly made whenever an employee or supervisor believes that a process or device has been discovered which is novel in its field. It is not necessary to wait until the process or device is completely reduced to practice nor to report as soon as the idea is conceived, unless for some special reason immediate report is considered necessary to protect the interests of the United States. The employee is not obligated to check the literature of the art or otherwise to make certain that the device or practice is technically "an invention" or is patentable.

3. Contents of invention reports. An invention report shall contain the following information: the title of the invention; the name, address and office of the inventor or inventors; a statement of the evidence of the invention available, any information concerning publication of the invention, the problems involved, the objects, advantages and use, and a description of the invention. Unless the invention report requests an opinion of

the Solicitor as to the relative rights of the Government and the employee under cection 2 of Order No. 1763, it will be assumed that the invention was made subsequent to the date of the order and within the scope of the governmental duties of the employee and will, accordingly, be assigned to the United States under that order. If an employee con- siders that the invention is not one required to be assigned to the United States, he shall in the invention report request a Solicitor's opinion of his rights and present the following information: the circumstances under which the invention was made and developed, his officlal duties as given on his job sheet or otherwise at the time of making the invention, and his conclusions as to his rights in the invention.

4. Action by the head of the bureau. The head of the bureau shall make certain that the invention report is as complete as circumstances permit. If in the report the employee requests a Solicitor's opinion as to his rights in the invention, the head of the bureau shall state his conclusions with respect to such rights.

If in the opinion of the head of the bureau the facts justify the execution of a certificate to the effect that the invention is liable to be used in the public interest, he shall see that information supporting that conclusion is presented to the Secretary's Office. If the employee's invention report does not contain sufficient information on that score, such information should be added by the bureau or office. When an invention has been produced in the course of the activities of the bureau or office, no special justification of its liability for use in the public interest is needed.

5. Action by the Solicitor. In any cases where the employee requests an opinion of the Solicitor under Order No. 1763, the Solicitor shall prepare an opinion and submit it to the Secretary. accordance with the decision of the Secretary in such cases, or in other cases in accordance with the decision of the employee to assign the invention to the United States, the Solicitor shall take such steps as may be necessary to assure the execution of an appropriate assignment or license to accompany the submission of a patent application by the Department of Justice to the Patent Office.

Section 3 of Order No. 1763 is hereby amended in so far as it is inconsistent with this order.

Harold L. Ickes, Secretary of the Interior. September 7, 1943.
